At Gladiator Pest Control Inc., the health and well-being of our customers and employees is our top priority. We are actively monitoring updates regarding the Coronavirus (COVID-19) and are following precautions and guidelines provided by the CDC and public officials.

It is my responsibility to protect the health and well-being of both my clients and my employees. Due to this responsibility, we are going to implement a short-term (minimum 30 days) change to our protocols of all **INTERIOR** services starting today, Thursday March 19, 2020.

Gladiator Pest Control Inc. will continue to schedule all services as you are accustomed to. We will be performing all scheduled services in a thorough and professional manner from the **EXTERIOR** of the home/business during this time period. This will include all Pest Control Services and any other services that can be performed from the exterior of the home/business.

*We will service the **INTERIOR** of the home/business if there are circumstances that cannot be addressed from the exterior! During interior treatments, practicing the safety protocol above is vital to limiting your exposure to the virus. Commercial customers will continue to be serviced as **NORMAL!**

I want to thank you all personally for understanding that this decision was based upon your safety and our customers' safety only. Please contact our office should you have any questions or concerns regarding these changes.
